Preface

We, member of Cambodia Children and Young People Movement for Child Rights (CCYMCR) facilitated by Child Rights Foundation, are pleased inform you-adults, and boys and girls who are working for the best interests of children and youth- that we have noticed that there are a significant number of organizations, associations, groups or clubs led by children and youth across Cambodia. We first published a directory in 2005. As a result, we had learned that there were 217 child or youth-led organizations and clubs. We second published a directory in 2006. We had learned that there were 290 child or youth-led organizations and clubs across Cambodia. However, we were not sure whether the number of these organizations, associations, groups and children and youth clubs was increasing or decreasing in 2010.

In respond to lack of the above information, we have redone a research to find out the clear-structured organizations and children and youth clubs led by children and youth under 24 years of age, still in operation across Cambodia and having contact address in order to compile a directory of child and youth-led organizations, associations, groups or clubs the third time. The result of this third research indicates that there are 717 organizations, associations, groups, children and youth clubs operating in Cambodia. CCYMCR will update this book in the coming year, and we do hope that children and youth clubs, which have not been listed in the book, will send us their information once the book is to compile again.

The main objective of this research is to identify activities implemented by children or youth clubs so as to facilitate our future collaboration.

In the end, we express our sincere thanks to your cooperation as well as the Child Rights Foundation and donors who have provided us funds as well as moral and technical support toward a successful implementation and we would like to wish you all the happiness and success in all works for the benefits of children.
